

DEAR GUESTS!

There are patients in the hospital who can be very susceptible to infections and often become seriously ill if infected.

Due to COVID-19, it has been decided that ALL in-patient wards will be closed to guests around the clock, except in exceptional cases. This also applies to the emergency ward at Landspítali in Fossvogur.

Please contact the relevant ward, or the Landspítali call center at 543-1000, if special exemptions are needed.

By doing this, we want to protect patients from infection.

You are welcome to call and get information about your relative or talk to him on the telephone.

The staff of Landspítali
